

THE KNOW SERIES

Who, What, When, Where, Why, How of the Christian Experience

LESSON # 16

Science and the Bible # 2

OBJECTIVE: Today we will see that things could not 'just have happened' but that there is order and design in the universe. A new branch of the study of 'origins' is emerging call "Intelligent Design.' This means that the observable evidence in the universe points to a Creator, a mind behind the creation. Today we'll watch a video that shows design in the universe.

Today is a video day....

The video continues the question of science and the Bible and talks about evolution.

The title of the video is:

"Incredible Creatures that Defy Evolution"
